A brief exposition about the two protagonists, Joe and Jean. To understand the point of view and feelings of each character, the heroine must visit their rooms. It's not easy to become the real protagonist and the right heroine. All the choices you make change the story, the plot and the characters' feelings. By activating various elements of the plot, the heroine will see different scenes. Some scenes can be skipped, but you can skip only a few. Like the previous game, you don't have to be too skilled at the topic because all of the options are carefully thought out. The main topics are described on the initial contact. You can also make choices about which sex to start with, the type of relationship and the age of each character. Unlike the previous game, there are elements of puzzles and there is also a date zone where you can practice making choices. Characters What would you want to do if you could not choose between Jean and Josie? You will find yourself in the most unique situations possible. Only you can choose how the story will end. The choice is yours. This game is the first of its kind and is made for everyone. But if you don't feel like reading... There are 12 small stories with silly and twisted endings. Game can be played in several ways: Easy (without characters' room) Standard (with characters' rooms) Hard (with characters' rooms) No more guessing what will happen next! Different endings (if you get to the last stage) All the most important characters' emotions at the end Refreshing humor The game plot is very interesting, to say the least. It includes: the longest love story ever, the most complex social topics. A moral choice You can take the game to its logical conclusion. Yes, even the most hardcore players will find several things to smile about. For those who just want to have fun, there are plenty of smaller stories to discover. And a few to watch. This game also contains personal secrets and things you will keep from your friends, which you should not reveal. In this game you can play in several ways: While reading the normal game While reading the small stories If you chose to play with sex, you will have to start with that way Heaven put it all together.

3.9 Rim Trial. Prerequisite: current Rocky Mountain Trail Riders license. This one day course is primarily for those who are interested in pickup riding, but will work for experienced motorcyclists. We will take the varying terrain and ride scenarios into the simulated section of the course at various times. Riders will be trained in a number of fitness and skill drills which will provide an interactive course of work, with emphasis on the safety aspects of riding motorcycles (in conjunction with the HSA). Basic riding skills, skills needed to handle motorcycles on varying terrain and skills needed for off-road types of riding will be covered. All riders must receive a formal greeting when signing up for this course. The maximum number of participants is limited to 12 per class. ~ Cycle History of Colorado ~ Colorado Motorcycle Museum 166 E Main St, Suite 110 Ft. I must find the smallest number $D\$ in the metric space that satisfies the condition $(x - 1) + (y - 4) \le 5\$. It looks like a simple task. However, I have no idea on how to approach it. All I can think of is: let $z = \sqrt{(x-1)^2 + (y-4)^2}\$ and consider $|x-1| + |y-4| \le 5\$ to be equivalent to $5 \le z + 1\$. I don't know if I'm even wrong at this point. Please help :) A: Hint: $$|x - 1| + |y - 4| = \left(x - 1\right)^2 + \left(y - 4\right)^2$$ Can you find the minimal values of $x\$ and $y\$ that make this an equality? Or, notice that $|x - 1| = \left(x - 1\right)^2$, and similarly for $|y - 4$

Battlezone 2061 is a recreated version of the classic arcade game Battlezone for the Xbox 360 Arcade. A remake of one of the most popular real-time strategy series of all time, BATTLEZONE 2061 builds on the original Battlezone with new units, scenarios, weapons, and enhancements. The classic vehicle combat of the original has been transferred to the modern generation using advanced 3D graphics and the state of the art Unreal engine 3. Key Features: Huge Game: The biggest problem with RTS games is that they're big. Battlezone 2061 is no exception. The game is big enough that it will take you around 20 hours to complete the entire campaign. Battle Plan: Battlezone 2061 is a real-time strategy game, and features a number of new ideas to enhance the depth and overall gameplay experience. Advanced Gameplay: Battlezone 2061 uses a new team-based gameplay with multiple units on one team. Classic gameplay has been improved with new tactics, such as support units, units that stay behind artillery to attack forces at a distance, and the ability to call in reinforcements and use automated units that can perform a variety of battlefield functions. Unparalleled HD Graphics: Battlezone 2061 features beautiful graphics and high frame rates. Note: The inclusion of Games for Windows Live in this game is limited and unsupported, and will not allow you to communicate online while playing the game. The Games for Windows Live client should be installed when Battlezone 2061 launches.Rescue of a patient with a moderate-severity congenital immunodeficiency syndrome (SH2D1A-SCID) by gene therapy with lentiviral transduced hematopoietic stem cells. Inherited immune deficiency syndromes (PIDs) represent a large group of heterogeneous disorders that are caused by germline mutations in genes located at the major histocompatibility complex, or genes whose protein products are involved in T-cell maturation, signal transduction, cell activation, or other key developmental processes. To date, the only curative treatment for these disorders is hematopoietic stem cell transplantation. We have used a lentiviral vector-based gene transfer strategy to correct the genetic defect in a patient with a moderate-severity Sh2d1a-SCID. The patient, born to consanguineous parents, is compound heterozygous for a homozygous missense mutation in the Sh
