It features improved aircraft, but forÅ . Battle of Stalingrad won't require any other Half-Life mod in order to play butÅ .LA Galaxy Top Performing MLS Clubs After Week 3 The Week 3 edition of Moneyball Performance Index sees the LA Galaxy in the No. 1 spot for the third consecutive week. The LA Galaxy have really been performing well in the Moneyball Index over the last two weeks. They sit at the top of the Western Conference after Week 2 and they are number one in the East. While it is too early to make a final judgement on the LA Galaxy's season, they are showing glimpses of what they have been able to accomplish by playing this way. How does the Moneyball Index Work? The Moneyball Index is a single numeric value which grades the performance of every Major League Soccer club each week. The Moneyball Index is based on the actual performance of the team throughout the game rather than on scoring events, such as goals. The Moneyball Index is unique in that it allows the data to be used beyond its usual linear fashion. The Moneyball Index is the first linear and nonlinear statistical analysis to be produced in professional sports, but we have previously used this methodology to determine the overall strength of your favourite college football team. The final ranking includes the Moneyball Index, a scoring efficiency statistic, the Defensive Index and a team ranking for overall performance. The Moneyball Index Values The Moneyball Index values are rank-ordered from worst to best to provide the best way for readers to have a look into which teams might be experiencing a slump while others are performing well. Moneyball Index Calculated from: Number of Goals Scored vs. Expected Goals Scored Number of Goals Conceded vs. Expected Goals Conceded Scoring Efficiency Rank Conceded Efficiency Rank Movement Rank Week 3 Moneyball Index 6d1f23a050
